

FINAL TERMS

dated 06 February 2026

The Ultima Global Markets Qazaqstan Limited

*(incorporated in the Astana International Financial Centre)
(as Issuer)*

*(guaranteed by THE ULTIMA WORLD DMCC)
(as Guarantor)*

Issue of Series 2026-02 USD 5,000,000 Share Linked Notes due February 2029

(the "Notes")

under the USD 300,000,000 Medium Term Note Programme valid until 31 January 2054

(the "Programme")

The Notes have not been and will not be registered under the United States Securities Act of 1933 as amended (the "Securities Act") or any state securities laws and, unless so registered, may not be offered, sold or otherwise made available within the United States or to, or for the benefit of U.S. persons as defined in Regulation S under the Securities Act except pursuant to an exemption from or in a transaction not subject to the registration requirements of the Securities Act and applicable state securities laws.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of:

- (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II");
- (ii) a customer within the meaning of Directive (EU) 2016/97 (the "EU Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
- (iii) not a qualified investor as defined in the Regulation (EU) 2017/1129 (the "Prospectus Regulation").

Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "EU PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of:

- (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA");
- (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the Financial Services and Markets Act 2000 (as amended, the "FSMA") to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or

- (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA.

Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Any person making or intending to make an offer of the Notes may only do so in circumstances in which no obligation arises for the Issuer to publish a prospectus or to supplement a prospectus, in each case, in relation to such offer, other than pursuant to Part 1 of the AIFC Market Rules No.FR0003 of 2017 (as amended and supplemented from time to time).

The Issuer has not authorised the making of, nor do they make, any offer of Notes in any other circumstances.

These Final Terms do not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

INVESTOR SUITABILITY - Prospective investors should determine whether an investment in the Notes is appropriate in their particular circumstances and should consult with such advisers as they deem necessary to determine the appropriateness, effect, risks and consequences of an investment in the Notes. Any decision by prospective investors to make an investment in the Notes should be based upon their own judgement and upon any advice from such advisers, and not upon any view expressed by the Issuer.

Given the nature of these Notes, the Issuer considers that they are only suitable for investors who:

- (i) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Notes;
- (ii) are capable of bearing the economic risk of an investment in the Notes for an indefinite period of time, which may involve a partial or complete loss of principal;
- (iii) are acquiring the Notes for their own account for investment, not with a view to resale, distribution or other disposition of the Notes (subject to any applicable law requiring that the disposition of the investor's property be within its control); and
- (iv) recognise that it may not be possible to make any transfer of the Notes for a substantial period of time, if at all.

Before making an investment decision, prospective purchasers should inform themselves about, and make a detailed evaluation of the nature and financial position of the Issuer and the Guarantor (as defined below).

Investors should also consider the fees payable to their broker and custodian when acquiring the Notes.

RISK FACTORS – The risks outlined in these Final Terms are provided to highlight certain essential risks only and are by no means comprehensive. You should read “*Risk Factors*” in the Prospectus (as defined below) for a fuller description of certain risks in respect of the Notes. Additional risks and uncertainties relating to the Issuer, the Guarantor, or the Notes that are not currently known to the Issuer or the Guarantor or that either currently deems immaterial, may individually or cumulatively also have a material adverse effect on the financial position of the Issuer, the Guarantor or on the performance of the Notes.

The below risk factors should be read in conjunction with the risk factors set out in the Prospectus.

Risks relating to the Notes

No secondary market

It is unlikely that a secondary market will develop for the Notes, providing investors with an opportunity to resell their Notes, and the Issuer does not intend to provide, nor to arrange for there to be provided, a secondary market providing Noteholders with an opportunity to sell their Notes. The more limited the secondary market, the more difficult it may be for the investors to realise the value of the Notes.

Issuer credit risk

Investors in the Notes are exposed to the credit risk of the Issuer, that is the risk that the Issuer is not able to meet its obligations under the Notes, irrespective of whether such Notes are referred to as capital or principal protected or how any principal, interest or other payments under such Notes are to be calculated. If the Issuer is not able to meet its obligations under the Notes, then, unless the Notes are Guaranteed Notes, that would have a significant negative impact on the Noteholder's return on such Notes, and a Noteholder may lose up to its entire investment.

Guarantor credit risk

Noteholders bear the credit risk of the Guarantor in the case of default by the Issuer, that is the risk that the Guarantor is not able to meet its obligations under the Notes, irrespective of whether such Notes are referred to as capital or principal protected or how any principal, interest or other payments under such Notes are to be calculated. If the Guarantor is not able to meet its obligations under the Notes, then that would have a significant negative impact on the Noteholder's return on such Notes, and a Noteholder may lose up to its entire investment.

Risks relating Share Linked Notes

The Notes are share linked notes, and the amount of interest payable and redemption amount is determined by reference to the performance of the Shares specified below (together, the "**Reference Shares**"). The Notes do not represent a direct investment in the Reference Shares, nor do they provide a return equivalent to a direct or proportional exposure to the performance of the Reference Shares. The structure of the Notes may result in returns that differ significantly from the performance of the Reference Shares, and investors may receive less than they would have received from a direct investment in the Reference Shares.

Investors in the Notes are exposed to the specific risks associated with the issuers of the Reference Shares. The financial condition, results of operations, business prospects, and creditworthiness of the issuers of the Reference Shares may be adversely affected by factors such as:

- Changes in management or business strategy;
- Adverse changes in competitive position;
- Changes in the regulatory environment affecting the company;
- Material litigation or legal proceedings; and
- Other events specific to each company.

Any negative development affecting any issuer of the Reference Shares may have a material adverse effect on the value of the Notes, irrespective of general market conditions or industry trends.

Investors in the Notes will not have any rights in respect of the Reference Shares, including voting rights or rights to receive dividends or other distributions.

The amount of interest payable and redemption amount will be determined on the basis of the price of or changes in the price of the shares as specified in paragraphs 23, 38 and 41, as applicable. Potential investors in these Notes should be aware that they may receive no or a limited amount of interest.

Transaction costs

When the Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) may be incurred by a Noteholder. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. To the extent that additional, domestic or foreign, parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, potential Noteholders must take into account that they may also be charged brokerage fees, commissions and other fees and expenses of such parties. In addition to such costs directly related to the purchase of the Notes, potential Noteholders should also take into account any ongoing costs (such as custody fees) that they will incur in holding the Notes. Investors should inform themselves about any additional costs that they may incur in connection with the purchase, custody or sale of the Notes before investing in the Notes.
